

New Fee Effective February 5, 2007

“MITIGATION MONITORING AND CONDITION REVIEW FEE.”

1. How does the New Mitigation Monitoring and Condition Review Fee work?

- The New Fee is part of the Department's on-going process improvement effort that is designed to save customers time and money.
- The New Fee amount is \$207.50, which is collected for the satisfaction of five or fewer conditions. If the customer has more than five conditions to be satisfied, the fee is multiplied for every increment of 1-5 conditions, depending upon the total amount of conditions that need to be satisfied by DPLU.
- The total fee amount will only be collected one time at the initial submittal. No additional fees will be required for future submittals.
- The DPLU condition satisfaction process is still the same, but this new fee benefits the customer for the reasons stated below.

2. What happens if the customer decides to pay or not pay the fee?

If the fee is paid	If the fee is not paid
The fee is calculated and paid only one time per project approval.	The customer will be charged a "Time and Materials" rate of \$83.00 hr for all staff time spent processing the condition satisfaction approval.
Generally, payment of the New Fee will only require one trip per condition satisfaction.	The customer will be required to return to DPLU to pay the "Time and Materials" invoice and pick up the approval letter for each condition satisfaction request.
The approval letter is internally transmitted to the appropriate County Department or staff, and a copy is mailed to the customer.	The customer will be responsible for submitting approval letter to the appropriate County Department or staff.
You can start taking advantage of all of the benefits the New Fee provides.	You will be required to pay the New Fee starting January 1, 2008, regardless of how many conditions you have remaining to sign off.

For questions about this new process, please Contact Patrick Brown at 858-649-3011, or by e-mail at Patrick.Brown@sdcounty.ca.gov
